

Pit/GAC closing briefly in June

Salisbury University is launching a major fundraising campaign. The campaign will have its public debut on June 14 with a festive dinner for SU's supporters. The dinner is meant to be special, so, of course, it will take place in a special place—the Pit in the Guerrieri Academic Commons. But that also means moving furniture, computers, etc. out and bringing in rental tables and chairs, decorating, and otherwise prepping the Academic Commons for this event. Consequently, on Wednesday, June 12, and Thursday, June 13, **the GAC will be open but the Pit will be closed** (not to worry, there are lots of computers and seating elsewhere, and the service desks will be open). But on Friday, June 14, as final preparations are made for the dinner, the **GAC will be closed. It will be closed again** on Saturday, June 15, to allow for cleanup, the removal of the tables and chairs, and the return of our tables and computers. We apologize in advance for any inconvenience. And rest assured that this campaign is about raising money to help you and the other people of SU—our students, faculty, and staff.

Many More E-books

Thanks to USMAI, our library consortium, you will have, as of July 1, access to more than 200,000 e-books, compared to the 17,000 we now have access to via USMAI. These titles cover all disciplines and make up the EBSCO Comprehensive Collection. If you're going to be away part of the summer or next academic year, keep in mind—you can still do research and study using these e-books. And you can find them just by using the search box on the main SU Libraries page! Couldn't be easier!

Academic Assistance Students, if you need some help with coursework over the summer, please keep in mind that the University Writing Center and the Center for Student Achievement both are open and available to support you during Summer I and II. The UWC is open M-Th 9 am-4 pm and F 9 am-1 pm. The CSA is open M-F 8 am-4:30 pm. Both are located on the second floor of the Guerrieri Academic Commons.
